

Sprint backlog priority list:

bugs(sprint 1)

multiple files(sprint 1)

create IR showtable(sprint 2)

run PO election (no audit needed, sprint 2)

Bugs

- fix runtime error CPL - PBI #1: As a Election Official I want to be able to run a CPL election without any errors disrupting the program, 2 hours
- Fix logic error with IR algorithm - PBI #9: As an Election Official, I want to be able to require that at least half of the candidates on my Ballot must be ranked for the Ballot to be valid, 4 hour
- fix CPL logic error - PBI #3:As a election official I want to be able to assign all seats in an election, 4 hours

Multiple files

- change the input code to accommodate for multiple files - PBI6: I want the program to have an option to input multiple files at once, so that I can save time and effort when processing large numbers of files. - 2 hours
- change IR algorithm to accommodate for multiple files - PBI6: I want the program to have an option to input multiple files at once, so that I can save time and effort when processing large numbers of files. - 3 hours
- change CPL algorithm to accommodate for multiple files: PBI6: I want the program to have an option to input multiple files at once, so that I can save time and effort when processing large numbers of files. - 3 hours
- unit test IR to accommodate for multiple files - PBI6: I want the program to have an option to input multiple files at once, so that I can save time and effort when processing large numbers of files. - 4 hours
- unit test CPL multiple files to accommodate for multiple files - PBI6: I want the program to have an option to input multiple files at once, so that I can save time and effort when processing large numbers of files. - 4 hours
- document IR multiple files to accommodate for multiple files - PBI6: I want the program to have an option to input multiple files at once, so that I can save time and effort when processing large numbers of files. - 1 hour
- document CPL multiple files to accommodate for multiple files - PBI6: I want the program to have an option to input multiple files at once, so that I can save time and effort when processing large numbers of files. - 1 hour

CSCI5801 board

Q

TO DO 4 ISSUES

unit test IR to accommodate for multiple files

☒ CSCI5-8

unit test CPL multiple files to accommodate for multiple files

☒ CSCI5-9

document IR multiple files to accommodate for multiple files

☒ CSCI5-10

document CPL multiple files to accommodate for multiple files

☒ CSCI5-11

IN PROGRESS 8 ISSUES

change IR algorithm to accommodate for multiple files

☒ CSCI5-2

change ask input code to accommodate for multiple files (main)

☒ CSCI5-1

fix runtime error CPL

☒ CSCI5-4

Fix login IR Election algorithm

☒ CSCI5-5

DONE

TO DO 4 ISSUES

accommodate for multiple files

☒ CSCI5-11

+ Create issue

IN PROGRESS 8 ISSUES

☒ CSCI5-5

change CPL algorithm to accommodate for multiple files

☒ CSCI5-3

fix CPL logic error

☒ CSCI5-12

Fix the algorithm for selection a random winner in an event of a tiebreaker for IR

☒ CSCI5-6

Create a PO Election setting

☒ CSCI5-7

DONE
